Mercantile Improvements.

W. H. Wright & Son are making quite a number of changes and improvements in their store, part of which has heretofore been devoted to groceries. Their business has thereased so rapidly as to necessitate the closing the grocery department entirely, this leaving their business exclusively dry goods and loots and shoes. The eld ware room and elevator room has been renovated and filled up with shelving, as inacthe old office. Two good sized rooms have been added to the rear, one as a wareroom for opening goods, the other for an office. Captain King's new story, which will appear in the October issue of the Cosmopolities and marks an increase of that periodical by twenty four pages, and will centain some features that have never before been presented in periodical literature. When it became nocessary to look up the subjects of illustrations for Captain King's story, the suggestion was made to have them taken from life. Some of the officers at West-Point took kindly to the idea, and, with the assistance of some of the most charming young tadies then visiting at the Summer hotels in the vicinity, tableaux were formed, and photographs taken, to meet the requirements of the text. These were reproduced by photographs taken, to have the illustrations as near to life as it is possible to present in a work of fiction.
